Profile

I am a Full Stack Developer with fifteen years of experience in both front- and backend-development. In recent years my main focus and passion lies in Ruby, HTML5 and JavaScript.

You can find some of my work in my Portfolio or on Github at: http://github.com/marcelfahle

Experience

Chief Technology Officer, Jumblzar, Hoboken, NJ – 01/2013 - Present
Jumblzar is a marketplace for baby and kids items. I am lead architect/developer of the Ruby based platform.

Freelance / Contract Web Developer – 07/2006-Present
Since 2006 I have worked with various clients, often as a subcontracter for internet and advertising agencies, to create web applications in a wide range of industries. The following list contains clients I work with on a regular basis:

Very Memorable, New York, NY
- Worked on multiple client projects including PBS Kids and 1938Media, featuring HTML5 Canvas Animation, JavaScript and Ruby.

Gedankenwerk, Essen, Germany
- Worked as lead developer on dozens of projects for Deutsche Telekom, Nokia, ThyssenKrupp and others.
- I did the entire frontend development of smart's 2010 international campaign "the smart class" in colaboration with BBDO Proximity
- Served as project manager for Deutsche Telekom's Intranet Relaunch "You and me"
- Co-architected the video streaming infrastructure for Deutsche Telekom's Intranet worldwide and developed the systems to manage the video content
- Technologies include: Ruby, Ruby on Rails, RSpec, Cucumber, PostgreSQL, MySQL, JavaScript, CoffeScript, HTML5, Heroku, AWS, Wordpress, PHP, Flash AS3, Flex

9elements.com, Bochum, Germany
- I worked on multiple applications with 9elements including img.ly, a photosharing app for twitter.
- Technologies include: Ruby, Ruby on Rails, RSpec, Cucumber, PostgreSQL, MySQL, Sinatra as well as Flash and PHP before 2009

FDT Platform Evangelist, Powerflasher, Aachen, Germany – 03/2008-11/2008
With Powerflasher I traveled to various conferences around the globe to spread the love about FDT, the Flash development IDE.

Web Developer, MAT-Computing, Bochum, Germany – 08/1998-10/2006
As the only web developer I was responsible for creating interactive HTML and Flash based websites, often with custom build PHP based CMS or eCommerce solutions.
